## Profile

---

Design graduate looking to secure a position within an art department where I can enhance my creative and technicals skills. I am a highly motivated designer with an eye for detail. I am particularly interested in finding a position where I can integrate my illustrations with my layout skills. While I am a multi-faceted designer, I feel my skills are best suited for print layout and UX/UI design.

## Education

---

### Long Island University, C.W. Post Campus

Bachelor of Fine Arts in Digital Art and Design (Summa Cum Laude)

August 2019 - May 2023

**GPA:** 3.820

**Awards:** Dean's List (every semester), Distinguished Scholar's Award, Performing/Visual Arts Award

**Coursework:** Digital Illustration, Web Development, Publication Design, Advertising, Package Design, Animation and Motion Graphics, Video Editing

## Experience

---

### PrintstationNY, Garden City Park, NY

#### Production Assistant/Graphic Designer April 2023-Present

- Collaborate one on one with clients to conceptualize and design projects per their needs.
- Work with large scale industrial printers to print designs onto posters, brochures, banners, signs, and clothing.
- Refine and update old artwork to higher quality.
- Manage production schedule, inventory, and funds.

### Deep End Productions, Spring 2023

#### Freelance Designer

Worked on a freelance basis for a series of music related projects. These include creating posters, album covers, logos, sticker designs, and a series of t-shirt design variations

### One River School Of Art + Design, Woodbury NY

#### Intern/Teacher's Aide Summer 2019

- Assisted with classroom management and document coordination to maintain a positive learning environment.
- Helped oversee students in the classroom and common areas to monitor their progress and enforce rules, as well as tutoring struggling students individually and in small groups to reinforce learning concepts.

## Software

---

- High level of technical proficiency working in the Adobe Creative Suite. Applications include Photoshop, Illustrator, InDesign, XD, After Effects, Premiere, Acrobat, and Dreamweaver.
- Well-versed in tablet-based illustration techniques using Procreate.
- Well-versed in human figure and anatomy as they apply to illustration.
- Working knowledge of Autodesk Maya and Fusion360, Wordpress and HTML5.

## Other

---

- Well-versed in Microsoft Office applications and their Google Drive equivalents
- Able to work under strict deadlines and manage time well
